**Sites:**

Site 1: St. Luke's Anderson Campus

Site 2: St. Luke's Bethlehem Campus

Site 3: Specialty Physician Associates (SPA)

Site 4: St. Christopher's Hospital for Children

Site 5: Center for Specialized Surgery

**Notes/Assumptions:**

1 - All outpatient elective cases are initially evaluated at Site #3: Specialty Physician Associates (SPA), which is where all outpatients and post-ops are seen, with the exception of St. Christopher's.

2 - Surgery sites for subspecialty training are based on the cases performed at those sites.

3 - Surgical sites for individual rotations conform to those assigned for the individual subspecialty faculty member supervising the resident rotators within that subspecialty focus.
