## NEW EMPLOYEE PROGRAM THERAPY ANYWHERE

St. Luke's Psychiatric Associates recently launched, "Therapy Anywhere". Therapy Anywhere offers outpatient psychotherapy specifically for St. Luke's employees and their immediate families, virtually, making professional therapy accessible, affordable, and convenient — so anyone who struggles with life's challenges can get help, anywhere and at a time convenient to you, on a device of your choice.

Therapy Anywhere provides access to licensed, trained, and experienced, psychotherapists, clinical social workers, and professional counselors and allows you to connect with them in a safe and private online environment. Anything you share is confidential. You can work with your therapist to find a schedule for therapy that best suits your lifestyle.

**To schedule an appointment with Therapy Anywhere, contact St. Luke's Psychiatric Associates Intake at 484-822-5703.**

After the initial intake call, all appointments are self-scheduled through MyChart, offering the flexibility to schedule appointments entirely on your own.

**Operating hours are 7 am – 7 pm, Monday through Friday.**
